Highlighted Programs

Montcalm Community College prepares students for great careers in high-demand, high-wage fields. We offer small class sizes and class times that fit students' schedules on our campuses in Sidney and Greenville. For more information, visit montcalm.edu or call 989-328-1277.

MiTransfer Pathway Social Work Associate of Arts (effective Fall 2022)

The MiTransfer Pathway Social Work Associate of Arts program is intended to set students up to transfer for a bachelor's degree to a participating college or university through the MiTransfer Pathways Project agreement. Upon completion of this program, graduates should be able to understand social work as a career, understand the role of social work in communities and demonstrate effective social work practice, meet general education core requirements and successfully transfer to a bachelor's degree program.

Education Support (A.A.S. and certificate)

This program is for students who desire training that satisfies state requirements for the Child Development Associate (CDA), Head Start programs, day care centers, home day care and related areas. Students who earn an associate of applied science degree in early childhood education will be prepared to be childcare professionals in a licensed childcare center where they are expected to organize and lead activities for young children.

Education Support (A.A.S.)

This program prepares students to be qualified educational paraprofessionals in Title I schools and other school districts complying with the No Child Left Behind Act of 2001, and it offers students a solid foundation in general education courses, as well as education-related courses. Students who earn an associate of applied science degree in education support will be prepared to assist, instruct and supervise students in primary, secondary and other childcare centers; this job is most commonly known as a teacher's assistant.

Criminal Justice (A.A.S. and certificate)

The associate of applied science degree program prepares students for careers in the criminal justice field. It is designed to provide an understanding of criminal justice, while allowing students to obtain special work-related skills necessary for work in a variety of criminal justice careers. Students who earn an associate of applied science degree in criminal justice will be prepared to obtain employment in a variety of criminal justice careers, and it is designed to provide an understanding of criminal justice, while allowing students to obtain special work-related skills necessary for work in a variety of criminal justice careers.
